Target Market	**Description of target market, including likely objectives, financial situation and needs** The features of this product have been assessed as meeting the likely objectives, financial situation and needs of consumers who: • meet the Issuer's eligibility criteria, including: - being 18 years or over; - being an Australian resident or being a New Zealand Citizen that resides in Australia or New Zealand; - having a good credit history (minor defaults may be considered satisfactory); and - being able to demonstrate the ability to repay the loan over a sustained period of time. • are: - self-employed; or - an Australian registered company; or - a trustee of an Australian family or unit trust (the beneficiary and Trustee must meet the eligibility criteria of an individual or a company); • require a loan to: - fund the purchase or refinance of an owner occupied or investment residential property; or - fund the construction of an owner occupied or investment residential property; • require a variable interest rate; • require access to features like a redraw facility and/or offset account; • require progressive drawdowns where the loan is obtained for a construction purpose; • require flexibility in repayments, and the ability to make additional repayments without penalty; and • require the option of either principal and interest or interest only repayments. The product meets the likely objectives, financial situation and needs of consumers in the target market because it enables consumers to: • make additional repayments and/or deposit funds into an offset sub-account to reduce interest payable whilst retaining the ability to draw on those funds when required; and • finance the purchase or refinance of an owner-occupied or investment residential property with the ability to make principal and interest repayments to build equity in the property; or • finance the purchase or refinance of an owner-occupied or investment property with the ability to make interest only repayments and benefit from lower repayments during the interest only period. This may enable consumers to make lower repayments, repay other higher interest debts, or claim tax benefits as an investor; or • finance the construction of an owner-occupied or investment residential property and make interest only repayments which are calculated on the loan amount drawn.
